Professional Summary

Software Developer experienced in building scalable full-stack applications using React.js, .NET Core, ASP.NET Core, and SQL Server. Skilled in REST API development, database design, authentication systems, and delivering user-centric solutions. Focused on performance optimization, secure architecture, and maintainable code practices.

Key Achievements

- Improved website performance by 35% through optimization techniques.
- Developed 5+ responsive applications with cross-browser compatibility.
- Integrated REST APIs for scalable content delivery.
- Reduced load time from 3.5s to under 1s using Vite optimization.

Experience

Apptad Inc.

Dec 2025 – Present

Software Developer

- Working on Survey Management System for National Productivity Council (Government of India).
- Developing scalable applications using .NET Core, React.js, and SQL Server.
- Designing and integrating RESTful APIs for dynamic data handling.
- Implementing role-based authentication and improving system performance.

Shuk Global Pvt. Ltd.

May 2024 – Dec 2025

Full Stack Developer

- Developed CustOs Admin & Agent Application using C#, WPF, .NET Core, and SQL Server.
- Built backend services and REST APIs for seamless integration.
- Implemented role-based access control and optimized database performance.

Projects

CustOs – Operations Management System

C#, WPF, .NET Core, SQL Server, REST APIs

- Developed Admin and Agent system to manage customer records and operational workflows.
- Built .NET Core REST APIs and implemented authentication with role-based authorization.
- Designed optimized SQL Server databases with layered architecture for maintainability.

BharatByte – IIT Delhi

React.js, Vite, JavaScript, Node.js, Express.js, REST APIs

- Built responsive frontend using React.js and Vite with reusable components.
- Developed backend APIs using Node.js and Express for dynamic content management.
- Improved application performance through optimized builds and responsive design.

Survey Management System – National Productivity Council (Government of India)

.NET Core, WPF, SQL Server, JWT, REST APIs

- Developed survey automation platform with multi-role access and JWT authentication.
- Built Admin desktop interface and scalable Web APIs for survey configuration.
- Implemented analytics dashboards and optimized database performance.

NCIIPC AI Grand Challenge Portal – NTRO (Government of India)

React.js, Vite, JavaScript (ES6+), HTML5, CSS3

- Contributed to AI challenge portal development under NTRO initiative.
- Built responsive interfaces and structured layouts using React.js and Vite.
- Ensured accessibility, scalability, and smooth user experience across devices.

RMS – Resource Management System

C#, ASP.NET Core, SQL Server, REST APIs

- Designed and developed resource management platform with CRUD functionality.
- Implemented REST APIs and role-based access control mechanisms.
- Optimized SQL Server schemas for secure and efficient data retrieval.

Technical Skills

Languages: *HTML, CSS, JavaScript, C#, SQL*

Frameworks: *React.js, .NET Core, ASP.NET Core, Node.js, Express.js, Tailwind CSS*

Tools: *Git, GitHub, VS Code, Vercel, Netlify, Figma, NPM*

Other: *DBMS, Operating Systems, Firebase, REST API Integration*

Education

Graphic Era Hill University, Dehradun

MCA (Master of Computer Applications)

2023 – 2025

CGPA: 7.6

Graphic Era Hill University, Dehradun

B.Sc IT (Bachelor of Science in Information Technology)

2020 – 2023

CGPA: 7.56

Certifications

- *Principles of UI/UX Design – Coursera*
- *Machine Learning – SoloLearn*
- *Web Development and Designing – OSICS*
